FOSC Discussion Questions

What are FOSC goals for water quality (qualitative/quantitative, human health/ecological, point source/area source)? Have all sources within TKPK been identified? Timeline for achieving goals?

Brief overview of what FOSC has done, is doing, will do regarding water quality

Does FOSC (or anyone else) maintain a repository of water quality data?

Who else is FOSC collaborating with and how can TKPK get involved in collaboration?

Are there City governmental actions that FOSC would like to see from TKPK?

How can COE and FOSC work together going forward?
