Context with Key Issues
The Council is asked to consider the adoption of an ordinance amending City Code to provide for the issuance of outdoor cafe permits, allowing for the use of public rights-of-way by local restaurants and other food establishments. The ordinance was revised following the February 7 work session discussion to include specific reference to the establishment of hours in the required regulations.

The proposed amendment establishes conditions for the issuance of an outdoor cafe permit; identifies permit requirements and requires the development of regulations. As detailed in the amendment, the required regulations would provide additional detail on the implementation and enforcement of the provisions of the amended code.

A second reading of the ordinance has been scheduled for February 21, 2018.

8.16.090 Outdoor cafes on public sidewalks.

A. The purpose of this section is to further the City’s efforts to increase the economic vitality of its business districts. The outdoor cafes will stimulate additional pedestrian traffic and provide a service that will complement the existing commercial uses within the district.

B. Definitions.

1. Food service facility is defined as a licensed facility such as a restaurant, coffee shop, café, food trucks, retail market or similar business in which food or drink is prepared for sale or for service on the premises or elsewhere, or any other operations where food regularly is served or provided for the public with or without charge.

2. Public right-of-way is defined as property owned by the City or over which the City has the right of access for the purposes of building and maintaining a street or sidewalk, curb and gutter, storm sewers and underground utilities. A public right-of-way includes but is not limited to a public street, on-street parking area and sidewalk.

C. The use of public right-of-way for outdoor cafes shall be permitted subject to the following conditions:

1. The use of the public right-of-way for an outdoor café shall be permitted incidental to the operation of a food service facility located on private contiguous property and may extend beyond the width of the storefront of the food service facility with the written consent of the adjoining property owners within the extended café area. In the event the outdoor café area is not contiguous to the food service facility, it must be located within 25 feet of the storefront of the associated food service facility;

2. Execution of a lease agreement with the City to run concurrently with the outdoor café permit;

3. Compliance with all City, County, State and Federal laws and regulations; and

4. Compliance with any conditions imposed by the City in connection with the issuance of an outdoor café permit.

2. Outdoor café permits are not transferrable. In the event of the transfer of ownership of the food service facility, the new owner must reapply for a permit.

3. The City may require temporary or permanent suspensions or modifications to a permit as necessary to perform repairs and maintenance in the right-of-way, facilitate crowds, or otherwise promote the public health, safety, and welfare of the community.

4. The City may suspend or revoke a permit for violations of this section, conditions of the permit, or other applicable City, county, state or federal law.

The City shall develop regulations for the implementation and enforcement of this section, which may include, but not be limited to, permit modification, renewal and revocation procedures, application fees, annual permit fees, calculation of annual fee increases, right-of-way lease terms and conditions, insurance and indemnification requirements, City approval of alcohol sales, City-imposed limitations on the hours of alcohol sales, additional permit criteria and standards, and prohibited activities.
