

## Takoma Park City Council Meeting – February 13, 2019 Agenda Item 4

### **Work Session**

Report Out from the Council Retreat and Discussion of Council Priorities

### **Recommended Council Action**

Discuss priorities established at the Council Retreat in preparation to affirm them by Resolution

### **Context with Key Issues**

The Council holds a retreat each year in advance of the budget preparation process. At the retreat, the Councilmembers discuss their priorities (later affirmed by resolution) which indicate the strategic direction they aim to move the City during their term. The priorities also inform the development of the City Manager's Recommended Budget.

This year's retreat took place over two evenings on January 24 and February 5. As they have done the last several years, the Council reflected on the priorities established the previous year and progress made to date, and discussed interests in policy, project and budget priorities for the upcoming fiscal year. This year, the retreat had an overarching theme of racial equity and much of the discussion was focused on how racial equity considerations could be built into all of Council's priorities and actions. The retreat was facilitated by consultants who have expertise and experience facilitating such discussions.

In addition to racial equity, the Council discussed existing priorities and preliminarily selected the top items they want to focus on in the coming fiscal year. The items preliminarily identified as top priorities include:

- Ensuring we have a range of safe, quality, and stable housing options that are affordable for residents of varying incomes and all races and ethnicities
- Planning and preparing for development in the City and region while maintaining the special character and diversity of Takoma Park
- Prioritizing actions, policies, innovations, and new opportunities that mitigate and adapt to the causes and effects of climate change
- Improve and formalize systems for Council-appointed committees
- Improving policies and processes, particularly those related to the Tree Ordinance and traffic, to make them more equitable and easy to understand and follow

While these items were identified as top priorities during the retreat, there are several other very important priorities and projects that Council and staff will address and/or continue to work on.

At tonight's meeting, the Council will further discuss their priorities and propose revisions as they see fit. Just prior to this meeting, Council heard directly from City department heads about the

identified priorities, how they align with current staff work plans and ongoing projects, and what they believe can realistically be accomplished in the upcoming fiscal year and beyond with existing staffing. In the coming weeks, Council will further refine the priorities document and vote to affirm the Council Priorities in March.

### **Council Priority**

A Livable Community for All; Fiscally Sustainable Government; Environmentally Sustainable Government; Engaged, Responsive, Service-Oriented Government; Community Development for an Improved & Equitable Quality of Life

### **Environmental Considerations**

The Council Priorities could result in increased use of sustainable energy, improved energy efficiency City-wide, greener development, and maintenance/growth of the tree canopy, among other possibilities.

### **Fiscal Considerations**

To be determined during the budget process.

### **Racial Equity Considerations**

The adopted 2018 Council Priorities have a goal specifically focused on furthering the City's efforts related to racial equity. The strategies associated with the goal include developing a strategic plan to take the racial equity framework to the next level, exploring the creation of a task force on racial equity, acquiring grant funds to provide racial equity training to members of Council-appointed committees and other residents, and conducting a racial equity survey among City staff.

Over the next few weeks, Council will discuss and determine how to document its strategy regarding next steps on addressing racial equity.
