Schematic Design Submission Hard Construction Cost Estimate Report

Report Date February 25, 2020 Revision Date February 25, 2020 Prepared for:

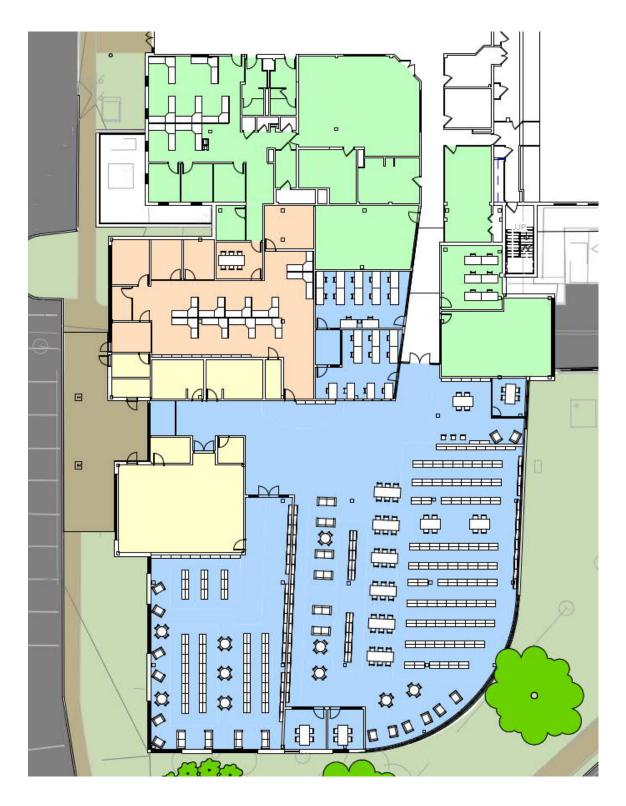

RRMM Architects

Tacoma Park Library Tacoma Park, MD

COST ESTIMATE CLARIFYING NOTES & EXCLUSIONS

- We have incorporated construction costs for a single Contractor procurement via lump sum General Contract.
- Without exception, we have included hard construction costs only and all soft construction costs are excluded. Please refer to list of Owner Budget Items.
- We have included HAZMAT abatement costs allowances for Lead Paint, Asbestos, and PCB's remediation costs in our analysis.
- Design / Estimate Contingency accounts for the costs of yet unidentified scope requirements and has been included in the amount shown in the Summary.
- Construction Contingency accounts for the costs of change orders. A Construction Contingency has not been included. We recommend that the owner carry an additional 3-5% Construction Contingency for unforeseen conditions.
- Escalation accounts for the inflationary effects of elapsed time and costs have been included as shown in the Summary.
- Our costs do not include any Owner Furniture storage or moving costs.
- All cost data is based on Open Shop wage and burden rates.

OWNER COSTS NOT INCLUDED IN OUR COSTS ANALYSIS

We have found during the budgeting phase, Owners sometimes do not fully consider all the costs they will incur when implementing capital improvements. For convenience, we provide below a list of common non-construction Owner costs.

FURNITURE, FIXTURE & EQUIPMENT [FF&E]

- Loose, unattached system furniture, traditional furniture, etc.
- Special fixtures relevant to subject facility operations and uses
- Communications equipment, such as servers, telephone sets, communications cables, instruments, & accessories
- Vending equipment purchases and/or leases, etc.
- Exterior equipment, such as exercise equipment, pay telephones.

MOVING & STORAGE COSTS

- Contract and/or internal staff implemented moving costs.
- Temporary storage and insurance.
- Removal and disposal of furnishings of no salvage value.

TEMPORARY FACILITIES

- Non-contractor temporary storage trailers.
- Non-contractor temporary utilities.

REAL ESTATE

- Land acquisitions, leases, easements and rights of way.
- Real estate taxes.
- Transfer taxes.
- Recordation fees & taxes.
- Brokerage commissions.
- Settlement charges.
- Legal fees.

MANAGEMENT Indirect Owner Mgt Expenses

- Real estate necessary to house management & staff.
- Utilities.
- Insurance.
- Furniture, fixture & equipment.
- Project management salaries.
- Communications, telephone, facsimile expenses, e-mail, etc.
- Travel, parking, courier services, etc.
- Security.
- Office equipment & supplies.

<u>COMMON OWNER COSTS (continued)</u>

PROMOTION / RESPONDING TO PUBLIC & MEDIA INQUIRIES

- Artwork and reproduction of advertising, brochures, hand-outs.
- Advertising fees.
- Postage.
- Signage.
- Photography.
- Renderings.
- Public and/or promotional events, such as hearings, fund raisers, etc.

FINANCIAL

- Accounting [in-house].
- Accounting [CPA].
- Interim financing [loan, bond, other] origination fees, expenses & interest.
- Permanent financing [loan, bond, other] origination fees, expenses & interest.
- Appraisal fees.
- Working capital / start-up.
- Performance [Owner, not to be confused with contractor] bonds

INSURANCE PREMIUMS

- Builder's risk
- Liability
- Title
- Other

LEGAL FEES

- Real estate, land, zoning, proffers
- Partnerships
- Financing
- Contracts
- Leasing

JURISDICTIONAL FEES

- Zoning, site and general building permit fees & expenses. Note: jurisdictional trade permit fees are included in our computations.
- Primary water utility availability and connection fees
- Primary sewer utility availability and connection fees
- Gas Company fees
- Power company fees
- Telephone company fees

<u>COMMON OWNER COSTS (continued)</u>

- Cable TV company fees
- State & local highway fees
- Mandatory completion bonds
- Adjoining owner demands
- Mandated off-site storm water management contributions

DESIGN FEES

- Architect / Engineer / Cost Management / Construction Management Consultant Fees
- Surveys, Civil Engineering, Testing and Third Party Inspection Fees
- Traffic Consultant Fees

RECOMMENDED COST CONTROL PROCESS

Controlling construction costs is a continuous process that spans from the initial programmatic level through to final completion.

MARKET CONDITIONS & OPINIONS OF PROBABLE COST

Downey and Scott, LLC has no control over market conditions or acts of God that can create rapid fluctuations in material prices. We have extensive experience in similar projects and have employed our best judgment in analyzing the subject project. We cannot, however, guarantee that actual construction costs will not vary from the opinions of probable construction costs herein provided.

Please contact D. Daigle –Vice President or Joe Adams, Sr. Project Manager regarding this project should you have any questions or concerns.

DOWNEY & SCOTT, LLC MARKET WATCH UPDATE

1st QUARTER 2020 MARKET WATCH

LABOR SHORTAGES & MATERIALS PRICE INCREASES CONTINUE

The Public Sector construction market in the Mid-Atlantic Region (and across most of the US) continues to

see significant increases in project costs. As we alerted our clients last year and have been suggesting for many months, inflation pressures are building significantly in both materials and labor costs. Policy decisions of the current administration to place tariffs on imported materials had an immediate and severe impact to market materials pricing. Our Municipal clients across the Commonwealth of Virginia are struggling with high construction costs and these increases have strained many fixed Capital Budgets to the breaking point.

All eyes are on the price of metals (up nearly 15% in one year), and labor (up over 12% in one year) as prices continue to rise. Labor shortages continue in addition to manufacturing and material prices increases continue upward

movement. Price pressures and further increase are expected through the first quarter 2020.

- Skilled trade and labor shortages continue (in most specialty trades) and has caused significant increases in labor costs – increased 10 – 20% in the past year
- Steel material increased an average of 15% in the past year, with further increases expected
- Aluminum products increased an average of 3.5% in the past year, with further increases expected
- Electrical wiring & cable materials increased an average of 4% in the past year, with further increases expected
- Fabricated metal products increased an average of 7% in the past year, with further increases expected
- Concrete & cement products increased an average of 2.5% In the past year, with further increases expected
- Lumber and wood products increased an average of 1.5% in the past year, with further increases expected
- Crude Oil decreased 5% in the past year with spikes in commodity pricing for 1st quarter 2020 expected. Expect the price of diesel and fossil fuels used in construction equipment to increase after Jan 1, 2020
- Asphalt Increased 1% in the past year

In summary, the market is overheated and there is a surplus of large projects that are consuming the limited labor forces. Many firms are struggling to keep up with schedules, and as a result some projects are seeing bids coming in significantly over budget. Competition is diminished while certain materials and labor costs have increased as the market struggles to keep up with demand.

ŀ

DOWNEY & SCOTT, LLC MARKET WATCH UPDATE

There is currently a lot of volatility in materials pricing, and suppliers are limiting price quotes to shorter time intervals. In many instances pricing submitted is valid for two weeks, and then subject to change. Materials especially hard hit by tariffs are HVAC equipment and lighting fixtures.

OUR CIP PLANNING RECOMMENDATIONS ARE AS FOLLOWS:

- Fiscal Year July 2020 thru July 2021 5.25%
- Fiscal Year July 2021 thru July 2022 4.75%
- Fiscal Year July 2022 thru July 2023 3.65%
- Fiscal Year July 2023 thru July 2024 3.25%
- Fiscal Year July 2024 thru July 2025 3.00%
- Net effect compounded percentage increase from current market = 19.90% over the next 5 years or an average of 3.98% per annum

KEY POINTS IN CIP ESCALATION TRENDS:

- The CPI index is not a good indicator of Construction Escalation / Inflation
- In construction Escalation / Inflationary trends outpace the CPI
- In construction Deflationary trends outpace the CPI
- Measure market activity in several ways Federal Spending and Stimulus Projects, War, Natural Disasters, International / World Market Consumption, Cost of Energy, Permit issuances, Supply of Labor
- Monitor inflation / escalation impacts each year and plan for increases annually to your CIP
