Single Reading Ordinance Approving the Amendment to the City's Financial Support of the Hillwood Manor Renovation from the Housing Reserve Fund to the Multi-Family Housing Rehabilitation Fund in ARPA (FY23)

Recommended Council Action

Approve the amendment to City's financial support of the Hillwood Manor renovation in the amount of \$250,000 from the Housing Reserve Fund to ARPA.

Context with Key Issues

Hillwood Manor, 1100 Linden Avenue in Ward 6, is a 96-unit property with fifteen (15) entrances and six (6) individual buildings. Montgomery Housing Partnership (MHP), the largest non-profit affordable housing developer in Montgomery County, purchased Hillwood Manor in 2016 from a single landlord as part of a three-property acquisition. When MHP purchased the Hillwood Manor property there were over 500 housing code violations and MHP then brought the Hillwood Manor property up to code.

MHP has assembled financing to perform a full modernization of the property, which will include the renovation of every unit, including new kitchens, baths, HVAC, electrical, plumbing, paint, flooring, and extensive repair to the common areas and exteriors. The project will see the expansion of some current units and the construction of a community center. The project design is focused on sustainability, including the electrification of the entire property, Energy Star rated roofs and windows, high efficiency heat electric pumps in all units, and high efficiency water heaters in all units.

The \$36.7 million project is supported by multiple public and private funding sources, including the State of Maryland, Montgomery County, Freddie Mac, Chase Bank, Low Income Housing Tax Credit (LIHTC) investors, and MHP's own equity contribution. MHP has requested the City contribute to the project as well.

MHP's LIHTC financing requires that the units be income-restricted. Once completed the renovation will result in ninety-six (96) affordable units ranging from 1-bedroom apartments to 4-bedroom apartments, with sixty (60) affordable units available to households with income less than 60% of the Area Median Income (AMI), twenty-three (23) affordable units available to households with income less than 50% of AMI, and thirteen (13) affordable units available to households with income less than 30% AMI.

Due to the income restrictions, approximately fourteen (14) current households are projected to be ineligible to remain in their units after renovation as their incomes exceed the 60% AMI income threshold required for this LIHTC-financed project. This number of households may change due to updated income verification and the unstable nature of the economy due to the COVID-19 pandemic. The households that are no longer income eligible will be allowed to remain on the property until the construction phase in which their units are located is completed. MHP has hired a relocation company, Housing to Home, to provide counseling, perform tenant surveys, and implement next steps per the Uniform Relocation Act (URA), which governs these situations. Each

resident who does not meet income eligibility will receive relocation counseling, reimbursement of moving costs, and a relocation benefit of \$7,200.

Council Priority

A Livable Community for All, Environmentally Sustainable Community, Community Development for an Improved and Equitable Quality of Life

Environmental Considerations

The project was designed with sustainable features, including the electrification of the entire property, Energy Star rated roofs and windows, high efficiency heat electric pumps in all units, and high efficiency water heaters in all units.

Fiscal Considerations

The City's \$250,000 contribution to the project will be paid out of the Multi-Family Housing Rehabilitation Fund in the ARPA Fund. The Multi-Family Housing Rehabilitation project has appropriated \$1M dollars in funding.

Racial Equity Considerations

The full modernization of Hillwood Manor will upgrade the quality of the affordable rental housing stock and the livability of City renters that have incomes below 60% of AMI. Per Census data, the majority of renters in Takoma Park are racial minorities, and the City's financial support of a full modernization of an affordable rental property contributes to the City's race equity efforts.
