

ALL-POINTS BULLETIN: BE ON THE LOOKOUT FOR THIS NO-NONSENSE, NO-TRADE-OFFS HYBRID POLICE UTILITY

Innovation: It's all about making a great thing better. The Police Interceptor® Utility is purpose-built in the U.S.A.² and continues to break new ground as the second pursuit-rated hybrid from Ford — and its third overall electrified vehicle for law enforcement. Ford is also equipping each Police Interceptor Utility with a built-in Ford modem and a complimentary 2-year Ford Telematics™ subscription,³ which provide timely cloud-based fleet management to help optimize running costs and improve asset utilization. No wonder the Ford Police Interceptor Utility outsells all other police vehicles combined.⁴

Improved performance: Fortified with full-time Intelligent AWD, a state-of-the-art 3.3L V6 hybrid and an all-new 10-speed transmission, the 2020 Police Interceptor Utility outperforms today's 3.7L V6 AWD Police Interceptor Utility, not to mention all police utility competitors — including V8-equipped models — that participated in official testing.⁵ Acceleration figures and top-speed numbers were tallied during rigorous evaluations conducted by the Michigan State Police and Los Angeles County Sheriff's Department.⁵ (See the back cover for testing details.) And so you know, the police-calibrated AWD isn't an afterthought. It's on duty full time and easy to operate — just drive. Preemptive torque is delivered by the millisecond among all 4 wheels to help maximize traction even when maneuvering on dry pavement.

Potential fuel savings: The standard hybrid drivetrain offers significant improvements in fuel use, factoring in reduced engine idle time and projected improved EPA-estimated fuel economy;⁶ potentially saving \$3,509 per vehicle per year. Calculation based on comparison with the 3.7L V6 Police Interceptor, with an example fuel price of \$2.75 per gallon. (See the next page for in-depth calculations.) Fewer fill-ups equates to reduced downtime, keeping vehicles and officers on the road.

Exceptional safety: The 2020 Police Interceptor Utility is 75-mph rear-impact crash tested? which is well above the Federal Motor Vehicle Safety Standard of 50 mph. Ford Police Interceptors continue a tradition of being the only vehicles in the world engineered to meet the test. SPACE (Side Protection And Cabin Enhancement) Architecture and ultra-high-strength boron steel enhance vehicle integrity, while deflective steel anti-stab plates are built into the driver and front-passenger seat backs.

Passenger/cargo room in abundance: Total interior volume is upped to 170.0 cu. ft. It's a full 3.5 cu. ft. more space than what's in the current Police Interceptor Utility. Passenger volume remains spacious at 118.0 cu. ft., and cargo volume behind the 2nd row expands generously to 52.0 cu. ft. — even with the addition of the hybrid's battery pack, which is located out of the way, under the vehicle. Ultra-durable cloth front seating remains specially contoured and slim-bolstered.

Upfit-friendly: In addition to the universal equipment top tray and front console mounting plate, 4 remappable steering wheel-mounted switches come standard. Headlamps are now automatic on/off and feature LED low- and high-beam functions, with factory-integrated wig-wag functionality and pre-drilled holes for user-installed warning strobes.

Enhanced durability: The regenerative braking system is police-tuned, and the wheels, hubcaps and tires are police-purposed. The alternator, plus the steering and suspension components, are heavy-duty to meet the demands of police performance. Supplemental front-door tethers strengthen hinge action, and the high-capacity cooling system has been improved. Validation testing takes into account 8" curb impacts, 30-mph railroad crossings, median crossings, water fording to 10" at 40 mph,8 water fording to 18" at 15 mph,8 and more.

RESPONSIVE TO YOUR RIGHT FOOT AND, MORE IMPORTANTLY, YOUR BUDGET

The all-new 2020 Police Interceptor® Utility - that comes standard as a hybrid electric vehicle (HEV) with AWD - offers significant potential fuel savings. Its lithium-ion hybrid battery can provide added benefits when considering the unique idling demands of day-to-day police use.

While driving, the all-new Police Interceptor Utility (standard HEV AWD)

potentially saves **343** gallons of fuel per year, per vehicle.

While driving. Police Interceptor Utility (standard HEV AWD) projected fuel economy compares favorably against the Police Interceptor Utility (3.7L AWD).

Police Interceptor Utility (3.7L AWD)

20.000 miles driven per year

÷ 17 MPG (EPA-estimated combined rating)¹

= 1.176 gallons of fuel consumed per year

20.000 miles driven per year ÷ 24 MPG (Projected EPA-estimated combined rating)²

= 833 gallons of fuel consumed per year

2020 Police Interceptor Utility (standard HEV AWD)

= 1.663 gallons of fuel consumed per year

Police Interceptor Utility

(3.7L AWD)

4.9 hours idling per 8-hour shift

X .465 gallons of fuel consumed per hour³

x 2 shifts per day

x 365 days per year

2020 Police Interceptor Utility (standard HEV AWD)

4.9 hours idling per 8-hour shift

X .204 gallons of fuel consumed per hour³

x 2 shifts per day

x 365 days per year

= 730 gallons of fuel consumed per year

While stopped, the all-new Police Interceptor Utility (standard HEV AWD) potentially saves **933** gallons of fuel per year, per vehicle.

While stopped. Even when not in motion, police vehicles must constantly keep their

engines running to power electrical equipment. Ford data shows that police vehicles spend

approximately 61% of each shift at engine idle: This equates to roughly 4.9 hours of every

by powering the high electrical loads of a police vehicle with its lithium-ion battery. So the

8-hour shift. The Police Interceptor Utility (standard HEV AWD) reduces engine idle time

engine runs less – intermittently called upon to top off the battery.

In summary, the all-new 2020 Police Interceptor Utility (standard HEV AWD) potentially saves:

An estimated **343** gallons of fuel per year while driving.

(+) An estimated **933** gallons per year saved while vehicle is at idle.

(=) An estimated **1,276** gallons saved per year, total.

That's **\$3,509** in potential savings per year, per vehicle. (Assuming an example gas price of \$2.75 per gallon.) Projecting to 4-, 5- or 6-year ownership terms, savings could grow to as high as \$34,452 at \$4.50 per gallon (see chart at right).

Additionally, there's a potential **22,560 lbs.** of CO₂ output⁴ reduced per year, per vehicle.

Visit fordpoliceinterceptor.com to calculate your own agency's potential savings.

2020 Police Interceptor Utility (standard HEV AWD)

Potential Total Savings at Varying Gas Prices and Terms

	4 Years	5 Years	6 Years
\$3.00/gallon	\$15,312	\$19,140	\$22,968
\$3.50/gallon	\$17,864	\$22,330	\$26,796
\$4.00/gallon	\$20,416	\$25,520	\$30,624
\$4.50/gallon	\$22,968	\$28,710	\$34,452

MEETING THE MODERN DEMANDS OF LAW ENFORCEMENT TO BE BETTER **EQUIPPED TO GET THE JOB DONE**

Duty-ready technology: Over \$2,000 worth of additional standard features along with improved horsepower, torque, acceleration and top speed - create even more potential value for taxpayers' money. The built-in Ford modem and complimentary 2-year Ford Telematics™5 subscription make for a powerful, yet simpleto-use way to receive timely manufacturer-grade information, insights and solutions regarding fuel savings, CO₂ emissions reduction, vehicle health and more. Bluetooth® wireless connectivity is also standard, allowing for pass-through voice commands to mobile devices – officers can keep their hands on the wheel and eyes on the road.

As already noted, low-/high-LED headlamps with wig-wag capability and pre-drilled strobe holes come standard, as do 4 user-configurable switches on the steering wheel. The steering column itself now has both tilt and telescoping functionality

Additional standard technological enhancements:

- Deep sand/snow traction control has a handy on/off button in the control panel
- Class III trailer tow receiver ups the trailer-towing capacity to a max. 5,000 lbs.6
- Automatic on/off headlamps revert to the last-used position
- Dual-zone electronic automatic temperature control (DEATC) optimizes comfort

Optional technologies:

- Monitoring approximately 270 degrees of movement outside the vehicle, factoryinstalled Police Perimeter Alert is an enhanced version of Surveillance Mode that analyzes motion to determine if behavior is a potential threat; a visual display in the center stack shows moving objects, the motion trail and threat level (if suspicious behavior is detected, a chime sounds, the rear camera turns on, windows roll up and doors lock)
- Activate the Rear Camera On Demand anytime, at any speed, for as long as desired
- Pre-Collision Assist with Pedestrian Detection (and Forward Collision Warning) also includes Automatic Emergency Braking (AEB) with a unique temporary disable switch for law enforcement
- An AGM battery (92 amp-hr, 900-CCA) handles hundreds of charge-discharge cycles
- The Class III Trailer Tow Lighting Package helps ensure maximum visibility

'EPA-estimated combined rating of 17 mpg, Actual mileage will vary, 'Projected EPA-estimated combined rating of 24 mpg, Actual mileage will vary. Final EPA-estimated ratings not yet available. Idle Fuel Consumption estimates are based on fuel flow measurements taken during 2 hours of continuous idling. Vehicles were driven for 18 miles at highway speeds prior to idling. Idle testing was conducted in an indoor facility at 73°F. The following vehicle accessories were activated during the test: Climate Control A/C, set to full cool condition; Vehicle Audio System, set to 30% of maximum volume. An electrical power draw load box drawing 32 amps was also connected to each vehicle's 12-volt battery to simulate the following estimated Police accessory loads: Emergency Lights (est. 25 amps); Laptop Computer (est. 3 amps); Police Radio (est. 4 amps). Additional testing details are available at ford.to/2H9qBEf. 4Burning a gallon of E10 ethanol fuel produces about 17.68 pounds of CO₂

emitted from the fossil fuel content, according to data provided by the U.S. Energy Information Administration (http://ford.to/eiareport). ⁵2-year subscription for Ford Telematics starts on vehicle sale date. Subscription features may be limited. Factors causing this limitation may include, but are not limited to, issues related to cellular coverage, carrier outages and carrier network service interruptions. Complimentary service ends after 2 years. 6When properly equipped

YOU CAN'T BEAT TOTAL PERFORMANCE

Pulling from 70 years of expertise working alongside law enforcement, Ford really took it to the competition in the latest official testing by the Michigan State Police (MSP) and Los Angeles County Sheriff's Department (LASD). The 2020 Ford Police Interceptor Utility 3.3L V6 Hybrid performed the finest for America's Finest in the majority of acceleration and lap-dynamics testing, topping all other makes of police utility vehicles! In sum, it bested all V8 and V6 utility-tested competitors. And it turned in improved performance compared to the previous-generation Ford Police Interceptor Utility outfitted with the 3.7L V6.
